ALLOWANCE

Allowable Subject Matter

1. Claims 3-23 are allowed.
2. The following is an examiner's statement of reasons for allowance: Applicant's arguments and amendments overcome the prior art for at least the reason that Blinn does not teach extracting given a query from a structured document but rather a database. In general, the invention is merging two document based on a query. While prior art was available that teaches mail merges as well as querying a structured document, no prior art was available that that combined the two technologies in the express detail recited by the independent claims, particularly the interleaving expressed in step (C) of claim 22 for example.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
